*Jaunpur, Uttar Pradesh*

## SKILLS

- |                   |                |                   |             |
|-------------------|----------------|-------------------|-------------|
| • Data Structures | • React.js     | • Embedded System | • Python    |
| • C/C++           | • HTML and CSS | • MATLAB          | • Bootstrap |
| • Tailwind        | • JavaScript   | • JAVA            | • DBMS      |

## SOFT SKILLS

Adaptable | Time Management | Flexibility | Good Communication | Problem Solving

## PROJECTS

### Weather Application 🔗 | HTML, CSS, JavaScript, API

July 2023

- The application offers users to input location details or access geolocation services to fetch current weather conditions and forecasts for their location.
- This project highlights proficiency in front-end development, API integration, and user interface design.

### Tourism Planner 🔗 | React

December 2023

- Created a dynamic Tourism Application made using the principles of ReactJS which chooses and deletes the place according to the user.
- This project demonstrates proficiency in front-end development, ReactJS, and user-centric design principles.

### GIF Generator 🔗 | React, API

March 2024

- Developed a dynamic GIF generator website using React.js, enabling users to create customized GIFs.
- Implemented responsive design principles to ensure seamless user experience across desktop and mobile platforms. Integrated with third-party APIs to fetch trending GIFs.

## EXTRACURRICULAR

### PHOENIX
